I have contacted Lambda Legal today to bring into perspectives my experiences into their case [County of Santa Clara vs HHS].

This Fax is primarily directed to the attention of:

That is DOCUMENTED EVIDENCE READY FOR TRIAL!

But this context message is for the use and reflection upon my very last HIV CARE Doctor trying to get out of exposing a conspiracy at the heart of this --- the underlying root of this --- your faith and beliefs paradigm.

Finding it necessary to move the argument that I have been documenting a cause and wicked effect onto me and a population of persons with HIV is what I have been doing for over 10 years.

Primarily etched into the barely visible secrets agenda that is obviously pulling the entire record forward from this time, to include my last regional experiences in Denver Colorado.

What I begin with here,

The HHS changing policy that allows for the "denial of services" in medical care, trickling down, this would of course also include social services. But It is apparent that you have already done place yourself in GOD'S ROLE by violations of privacy to reach a conclusion that you could scape out of following the law and not serve those you consider "The Dirty". They deserve to go to die and hell in your belief.

You do not realize what you are doing.

That is why you have this placement on the web.

<http://doctor-eric-tomomi-shigeno.fuckeduphuman.net>

You all need to go back to school.

For in science there what is called "social science" In that science, it has pretty much been determined fact that it is the erosion of trust that leads to murder and mass shootings. A trust so badly that a person goes insane to shoot up to something, somewhere and a bunch of someones before they go either shoot themselves dead or succumb to that desperate act to suicide by cop outcome. This is a travesty.

But you must be a science denier.

Let me try to put science in a way that you might consider it a reality.

A gene is a single unit of information needed that make up the blueprints on how to physically construct the human body, including the human brain inside of it. The science that defines it is called genetics. It does not take too much of a reach to understand these facts if one actually has gotten to the stage of being parents and had children as offspring.

There is obviously a carried over trait that passes from physical to physical outcomes. But what of the mind and everything you think you know, do know, want to know, or care not to know?

A meme is a single unit of cultural information stored in the container of the mind. Following a mirror of the science of genetics, memetics tackles the sense of what is human from physical onto our mind's individually unite presence in our world. We are born in this world fresh with no mind to our impressions that would then take hold the second [actually occurs prior to birth in the womb] after birth. When we start breathing, we are being exposed to memes from mother and father and the family. These are called familial memes or sometimes we can put them into a different category "Familial Lessons".

All of the memes that are contained in your mind at any one time make up what is your human consciousness. They are mapped into the structures of the brain as each moment is experienced by a human being including their dream states.

A huge videotape recording happening of every input sense of our being, including our intelligence of creativity and imagination that is unique to a species on earth, is being mapped into each human being living on the planet as we read these words.

This is made up what you think you know, what you want to know, what you are exposed to know, and it's indifference, what you actually don't know, what you actually don't want to know, what you actually care to know, and what you actually do not care to know.

There is a technology tool in use today that is on the basis of these elements of this mind science called "Brain Fingerprinting". Look it up if you have never heard of it yet. It is an advanced Lie Detection Method that has been approved to be used in court trial evidence standards.

Sorry but that is the field of memetics applied into already working model of understanding.

On the non-technology applied aspects of life. if you break down life and observe what we think we know as truth is only memes and memplexes [a group of memes], then you can determine things and see things from a higher level perspective [higher view], that with this application of memetics used in your life. You see new kind of vision of patterns behind what are behavioral attitudes and actions toward something.

As I always reach out to a case of history that most people have the meme to have been told this in school.

Back in the age prior to cosmology [the study of the universe], the Earth was considered to be the center of everything. We of course now know it is it. Also as this center, it was flat. [a piece of sky]. That is all we could become aware of.

Most people understood this --- and someone discovered that the earth is in fact round. More than that, but we actually are not the center of the universe but revolve around the sun. This can be mathematically calculated by continuous monitoring of the objects that float by in our human eye perspective of the sky.

When the idea was first mentioned that the Earth [which is the truth] is not flat, we are not the center of the universe, heresy, and sin to that "real science" --- to all of that rationale since garbage --- FIRE, AND BRIMSTONE for you --- DUNGEON --- BE AWAY WITH YOU before you concede our truth, the earth is flat. But the earth is not flat, it is round.

That was Copernicus --- He died an enemy of the church --- uncelebrated for his genius.

But in 2010, he was reburied by the Roman Catholic Church. Ever Since that event, I do believe the Church has taken a science emersion course correction.

It is time for you all to do the same. If you can't understand what this is about --- you need to go back to school to weed out of your bias of nonsense that in true ESSENCE that IGNORANCE of TRUTH is GRAVE here ---- ESPECIALLY CONSIDERING YOUR ROLE INTERFACES INTO OUR SOCIETY --- THAT IGNORANCE KILLS PEOPLE!

May 24, 2010 - Once a heretic, Copernicus now re-buried with Catholic honors. Thanks to DNA analysis and radar, the remains of 16th-century Polish astronomer Nicolaus Copernicus have been identified. Now, the man whose ideas were once considered heresy is now being interred with special honors in a Catholic ceremony.

{ ... }, { ... }, { ... }

From his private meeting with President Obama to giving the first-ever papal address before a joint session of Congress, Pope Francis did not shy away from politics during his three-day stop in Washington, D.C. (Julie Percha/The Washington Post)

An excerpt from his public address broadcast worldwide live to which this author here was watching and listening to him intently. He said to the world to what I agree has been a part of my missing portion of my mission work ideal - I have no fix for this and I cannot totally be in this community work alone. This is what he told or asked or advised us to do:

{ ... }, { ... }, { ... }

— All of us are quite aware of, and deeply worried by, the disturbing social and political situation of the world today. Our world is increasingly a place of violent conflict, hatred and brutal atrocities, committed even in the name of God and of religion. We know that no religion is immune from forms of individual delusion or ideological extremism. This means that we must be especially attentive to every type of fundamentalism, whether religious or of any other kind. A delicate balance is required to combat violence perpetrated in the name of a religion, an ideology or an economic system, while also safeguarding religious freedom, intellectual freedom and individual freedoms. But there is another temptation which we must especially guard against: the simplistic reductionism which sees only good or evil; or, if you will, the righteous and sinners. The contemporary world, with its open wounds which affect so many of our brothers and sisters, demands that we confront every form of polarization which would divide it into these two camps. We know that in the attempt to be freed of the enemy without, we can be tempted to feed the enemy within. To imitate the hatred and violence of tyrants and murderers is the best way to take their place. That is something which you, as a people, reject. Our response must instead be one of hope and healing, of peace and justice. We are asked to summon the courage and the intelligence to resolve today's many geopolitical and economic crises. Even in the developed world, the effects of unjust structures and actions are all too apparent. Our efforts must aim at restoring hope, righting wrongs, maintaining commitments, and thus promoting the well-being of individuals and of peoples. We must move forward together, as one, in a renewed spirit of fraternity and solidarity, cooperating generously for the common good. The challenges facing us today call for a renewal of that spirit of cooperation, which has accomplished so much good throughout the history of the United States. The complexity, the gravity and the urgency of these challenges demand that we pool our resources and talents, and resolve to support one another, with respect for our differences and our convictions of conscience.

=====

REPEAT:

"But there is another temptation which we must especially guard against: the simplistic reductionism which sees only good or evil; or, if you will, the righteous and sinners. The contemporary world, with its open wounds which affect so many of our brothers and sisters, demands that we confront every form of polarization which would divide it into these two camps."

That is exactly what this secret hidden agenda in the Ryan White Care Act social services and doctor care is all about. Consider the possibility of the science — and rationalize the hate and destruction in it's wake. Do the right thing here — call for RECONCILIATION and ACCEPT our PLACE in the HISTORY BOOKS for memetics is the science you all can't see — the world is really round and you all are calling it flat.

County of Santa Clara v. HHS

Status: Open

Court: U.S. District Court for the Northern District of California

Issues: Anti-LGBT Rulings, Laws and Amendments, Health Care Fairness, Religious Exemptions, Transgender Rights

Lambda Legal, Americans United for Separation of Church and State and the Center for Reproductive Rights filed a lawsuit challenging the U.S. Department of Health and Human Services “Denial of Care” Rule.

In the lawsuit, filed in the U.S. District Court for the Northern District of California in coordination with Santa Clara County, the organizations are representing Trust Women Seattle, Hartford GYN, Whitman-Walker Health, Bradbury-Sullivan LGBT Community Center, Los Angeles LGBT Center, Center on Halsted, Mazzone Center, GLMA, Association of Gay and Lesbian Psychiatrists, Medical Students for Choice and various physicians.

The new regulation invites health care workers – doctors, nurses, EMTs, administrators and clerical staff – to deny medical treatment and services to patients because of personal religious or moral beliefs. Health care facilities that do not comply risk losing federal funding. The regulation will cause mass confusion among health care providers and is completely infeasible to implement. As a result, health care facilities may do away with reproductive and LGBTQ services altogether, leaving millions without access to critical health care.

The lawsuit argues that the rule is unconstitutional because it advances specific religious beliefs in violation of the First Amendment; violates patients’ rights to privacy, liberty and equal dignity as guaranteed by the Fifth Amendment; and chills patients’ speech and expression in violation of the First Amendment, all to the detriment of patients’ health and well-being. The lawsuit also asserts that HHS violated the federal Administrative Procedure Act in creating the rule by arbitrarily and capriciously failing to consider the impact on patients.

History

- **May 24, 2019:** HHS proposes new regulations designed to roll back regulations issued during the Obama Administration that clarified that, pursuant to federal law, the sex discrimination protections of the Affordable Care Act forbid discrimination against lesbian, gay, bisexual and transgender people.
- **May 28, 2019:** Lambda Legal, Americans United for Separation of Church and State and the Center for Reproductive Rights file suit.

Connection On LinkedIn --- Goes Beyond Case Management -- We are Peacebuilders United

Dear Mr. Maynard,

My name is James Martin Driskill. I have been the victim of the Ryan White Care Act social services that has placed me into an intractable conflict of a wicked problem that there absolutely no question exists.

We can proceed professionally like it matters. Everyone so far has broken their trust with this network in the protection of a great huge secretive agenda that is not being revealed in the social services side of provided contract relationships.

I take my job as a peace builder extremely seriously.

We cannot proceed with this secret unrevealed to the cause and harming effect it is having onto our society.

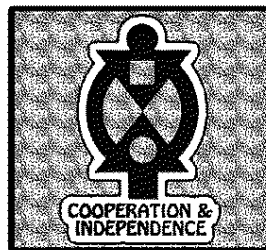

Loss of #SocialTrust Within Our Communities Leads to Violence, Mass Shootings and General Social Breakdown | LinkedIn <https://www.linkedin.com/pulse/loss-socialtrust-trust-quotients-within-our-leads-gun-james-driskill/>

IT IS NOT POSSIBLE TO JUST IGNORE THESE FACTS.

FURTHERMORE, IT IS NOT POSSIBLE TO DEFINE OUR RELATIONSHIP AS MINIMALISTIC AS YOU WOULD DESIRE TO HOLD ME DOWN FROM THE OPPORTUNITY TO BE THE PEACEBUILDER TO THE WORLD. MY TECHNOLOGY WORKS, LOGICALLY DEFINED PURPOSED, AND HAS BEEN ACTIVE ONLINE IN THE WORKING MODEL FOR OVER 10 FULL YEARS. YOU SIMPLY CANNOT JUST IGNORE ME TO THE CAUSE AND EFFECT OF RUINING MY LIFE TO IT'S HOLDING SANITY. YOU ALL ARE INSANE AND YOU ALL ARE FOLLOWING DELUSIONS OF IDEALS THAT ARE UNWISE AND UNTRUE TO BE HOLDING.

That is all I have to say here, accept the link to <http://5150.fuckeduphuman.net> -- a standing of sanity if my version of arguments goes on deaf ears here at Foothill Aids Project. I will find the doctor who actually cares for our world in logical ways of being mental health care wise. I don't accept your paradigm that you all have established that holds a secret agenda.

IT IS WRONG !! Time to follow Doctor Howard Newsom's Mental Health Advocacy Letter attached to the materials that are google imaged indexed, per the document exchange that occurred.

You haven't received a response yet.
